

CL11H

Fingerprint Time & Attendance

CL11H is a 2.4 inches color screen biometric terminal for Time & Attendance applications. It adopts fingerprint collector for excellent recognition.

Users can manage data via TCP/IP and USB host Port for data up/download to avoid the risk of accidental deletion.

Features

- **USB:** Support USB host connection to achieve data backup and management while the device is standalone.
- **Patterned & Touch Chip Sensor:** Excellent recognition rate. Dry, moist, or rough fingerprints can work well.

Specifications

User Capacity	2000
Fingerprint Capacity	2000
Id Card Capacity	2000
Record Capacity	160,000
Display	2.4" color screen
Communication	TCP/IP, USB-host
Standers Functions	Fingerprint, RFID Card, Pin Code, TCP/IP, USB
Optional Functions	ID
Power Supply	5V DC/1A
Operating Temp.	0°C-45°C
Operating Humidity	< 90% RH
Colour	Black
Language	English
CPU	320 MHz
